

Contents Volume 15

No. 1	Detailed list of contents	i
<i>J.P. Thiery (Nogent-sur-Marne, France)</i>	Foreword	65
Mechanisms of cell migration in the vertebrate embryo (<i>Review</i>)		
1	<i>L.C. Stevens (Bar Harbor, ME, U.S.A.)</i>	
<i>M. Solursh (Iowa City, IA, U.S.A.)</i>	Spontaneous and experimentally induced testicular teratomas in mice (<i>Introduction</i>)	69
Ectoderm as a determinant of early tissue pattern in the limb bud		
17	Teratocarcinoma stem cell lines	75
<i>I. Martelly (Creteil, France)</i>	<i>H. Jakob (Paris, France)</i>	
Calcium thresholds in the activation of DNA and RNA synthesis in cultured planarian cells: relationship with hormonal and DB cAMP effects	Stem cells and embryo-derived cell lines: tools for study of gene expression (<i>Minireview</i>)	77
25	<i>H. Walt and Chr. E. Hedinger (Zurich, Switzerland)</i>	
<i>J. Julien, D. Bogdanovsky-Sequeval, B. Felenbok and M. Jacquet (Orsay, France)</i>	Differentiation of human testicular embryonal carcinoma and teratocarcinoma grown in nude mice and soft-agar cultures	81
Expression of a spore-specific gene in <i>Dictyostelium discoideum</i>	S. Gregorová, M. Loudová, K. Dohnal, J. Nosek and J. Forejt (Prague, Czechoslovakia)	
37	Establishment of pluripotent embryonal carcinoma cell line not expressed SSEA-1 and ECMA-7 phenotypes	87
<i>H. Sariola, B. Peault, N. LeDouarin, C. Buck, F. Dieterlen-Lièvre and L. Saxén (Helsinki, Finland; Nogent-sur-Marne, France; and Philadelphia, PA, U.S.A.)</i>	<i>A.M. Wobus, U. Kiessling, M. Strauss, H. Holzhausen and J. Schöneich (Gatersleben, Berlin and Halle, G.D.R.)</i>	
Extracellular matrix and capillary ingrowth in interspecies chimeric kidneys	DNA transformation of a pluripotent mouse embryonal stem cell line with a dominant selective marker	93
43	Differentiation in vitro, cell surface markers	99
<i>I. Ophir, A.A. Moscona and Y. Ben-Shaul (Tel Aviv, Israel and Chicago, IL, U.S.A.)</i>	<i>T. Muramatsu (Kagoshima, Japan)</i>	
Cell disorganization and malformation in neural retina caused by antibodies to R-cognin: ultrastructural study	Cell surface glycoproteins as markers in monitoring in vitro differentiation of embryonal carcinoma cells (<i>Minireview</i>)	101
53	<i>P. Dráber and Z. Pokorná (Prague, Czechoslovakia)</i>	
<i>Announcement of the International Society of Developmental Biologists</i>	Differentiation antigens of mouse teratocarcinoma stem cells defined by monoclonal antibodies	109
<i>Author Index</i>	A. Bukovský, J. Pospichalová and P. Dráber, (Prague, Czechoslovakia)	
63	Localization of mouse TEC-1,2,3 antigens in adult and fetal tissues in the rat and human	115
<i>Subject Index</i>	L.B. Grabel (Middletown, CT, U.S.A.)	
64	Isolation of a putative cell adhesion mediating lectin from teratocarcinoma stem cells and its possible role in differentiation	121
Nos. 2-4	<i>J. Wartiovaara, P. Liesi and L. Rechardt (Helsinki and Tampere, Finland)</i>	
MOLECULAR BIOLOGY OF EMBRYONIC AND TERATOCARCINOMA STEM CELLS	Neuronal differentiation in F9 embryonal carcinoma cells	125
Proceedings of an international symposium organized by the Institute of Molecular Genetics, Czechoslovak Academy of Sciences, Prague, held in Liblice Castle, Czechoslovakia, 10-15 September, 1984		
Edited by J. Forejt and P. Dráber		

D.L. Bronson, R.L. Vessella and E.E. Fraley (Minneapolis, MN, U.S.A.)

Differentiation potential of human embryonal carcinoma cell lines

I. Damjanov, R.K. Clark and P.W. Andrews (Philadelphia, PA, U.S.A.)

Cytoskeleton of human embryonal carcinoma cells

J. Zákány, J. Farkas, L. Takács, G. Veres and I. Raskó (Budapest, Hungary)

Detection of a nerve-specific membrane protein on differentiating PCC3/A/1 cells

G. Walter, A. Intek, A.M. Wobus and J. Schöneich (Gatersleben, G.D.R.)

Serological characterization of a pluripotent mouse embryonal stem cell line, two transformed derivatives, and an endoderm-like cell line

Differentiation in vivo, chimaeras

J. Rossant and V.E. Papaioannou (St. Catharines, Ontario, Canada and Boston, MA, U.S.A.)

The relationship between embryonic, embryonal carcinoma and embryo-derived stem cells (Minireview)

U. Petzoldt (Marburg, F.R.G.)

Regulation of stage-specific gene expression during early mouse development: effect of cytochalasin B and aphidicolin on stage-specific protein synthesis in mouse eggs

H. Blüthmann (Geneva, Switzerland)

Nerve-cell-specific proteins in teratocarcinoma-derived neuroblastomas and embryonic brain

V.E. Papaioannou, B.K. Waters and J. Rossant (Boston, MA, U.S.A. and St. Catharines, Ontario, Canada)

Interactions between diploid embryonal carcinoma cells and early embryonic cells

E. Calef, A. Fruscalzo and R. Jucker (Rome, Italy)

Fate of Friend leukaemia cells and lymphoma cells injected into mouse blastocysts

M. Vojtišková, P. Dráber and Z. Pokorná (Prague, Czechoslovakia)

Relationship of F9 antigens to spermatogenic cell antigens

I. Bartels, J. Jenderny and I. Hansmann (Göttingen, F.R.G.)

Control of meiosis by somatic cells in mice: inheritance of the meiosis I error 'diploid' and nonexpression in sensitive NMRI/Han oocytes ovulated from chimeras

K. Becker, A.M. Wobus, U. Conrad and J. Schöneich (Gatersleben, G.D.R.)

Injection of murine embryonal carcinoma cells and embryo-derived pluripotential cells into mouse blastocysts

Genetics

W.F. Dove (Madison, WI, U.S.A.)

Developmental molecular genetics of the mouse and its embryonal carcinoma (Minireview)

C. Besnard, C. Lasserre, R. Pictet and J. Jami (Paris, France)

Persistence of transcription of the human β -globin gene in hybrids between transfected F9 embryonal carcinoma and L cells

S. Ostrand-Rosenberg, V. Clements, G. Cole, A. DeCloux, L. Marr and M. Schwartzman (Catonsville, MD, U.S.A.)

Regulation of major histocompatibility gene expression in teratocarcinoma 402AX cells

J. Forejt, S. Gregorová, K. Dohnal and J. Nosek (Prague, Czechoslovakia)

Gene expression of differentiated parent in teratocarcinoma cell hybrids. Repression or reprogramming?

S. Gregorová, M. Loudová and J. Forejt (Prague, Czechoslovakia)

A gene controlling teratocarcinoma graft rejection mapped inside the i^0 haplotype

K. Huebner, L. Nagarajan, E. deJesus, S.H. Orkin, C.T. Caskey and C.M. Croce (Philadelphia, PA, Boston, MA and Houston, TX, U.S.A.)

Activity of X-linked genes in stem and differentiated *Mus musculus* \times *Mus caroli* hybrid cells

P. Dráber and M. Vojtišková (Prague, Czechoslovakia)

Developmentally regulated surface structures of teratocarcinoma stem cells studied by mutant cell lines

Molecular analysis of development

P.N. Goodfellow (London, U.K.)

The use of cloned gene probes to study differentiation in teratocarcinomas (Minireview)

D. Vestweber and R. Kemler (Tübingen, F.R.G.)

Some structural and functional aspects of the cell adhesion molecule uvomorulin

C. Dony, M. Kessel and P. Gruss (Heidelberg, F.R.G.)

An embryonal carcinoma cell line as a model system to study developmentally regulated genes during myogenesis

Announcement of the International Society of Differentiation
